SUBJECT : Classified Document Destruction

1. Thank you for your memorandum of 26 November 1976 furnishing the R&D Subcommittee membership list and organization chart.

2. In your memorandum you requested that the R&D Subcommittee report on Classified Document Destruction be reviewed to determine if any further effort was desirable. In view of current CIA projects and the absence of any additional R&D interest in this field at this time, no further action is necessary by your Subcommittee. It is assumed your Subcommittee will closely follow the CIA projects and keep the Security Committee members advised as to the results of these projects.
